

Gold Dude Award Recipient

For Immediate Release on July 14, 2009 McKinney, TX – Consumer Credit Counseling Service (CCCS) of North Central Texas recently recognized Beth Rourke for having a great take-charge attitude. She not only has that wonderful can-do attitude, she does it in such a way that everyone around her catches the same spirit. Beth's smile is contagious, both on the phone and in person. She has a caring heart, a quick mind, and a passion for what she does.

Beth consistently performs her own work well and then is quick to volunteer when others are in need of an extra hand. Recently, she very willingly took on the back-up position in accounting when our regular accounting personnel took a much deserved vacation. Her accounting capabilities and understanding are excellent. This is a very critical position for our client disbursements. She learned the duties over a short period of time and filled the position without a hitch. In addition, she has connected us with a very capable person to handle our computer issues, which would have otherwise caused us many more hours of critical down time than we experienced.

Beth is truly an asset to our team and to CCCS of North Central Texas.
